Confined spaces incidents aren't the most common, but they can be the most deadly. That's because the hazards tend to be misunderstood or underestimated. And many confined spaces fatalities involve not one, but two, victims: the worker and the rescuer.

OSHA's Permit-Required Confined Spaces Regulation was created to help prevent these incidents. And the National Safety Council's Confined Spaces Compliance Training Seminar can help you put the regulation into practice and save lives.

Through discussion and activities, our professional facilitator will break down the regulation into terms you can understand. In just four hours, you'll learn practices and procedures that will keep you in compliance and, best of all, protect your employees.

The course covers:

- Key elements of the OSHA Permit-Required Confined Spaces Regulation (29 CFR 1910.146)
- Confined spaces concepts and terminology
- The difference between confined spaces and permit-required confined spaces
- How to identify and evaluate hazards: atmospheric, mechanical, chemical
- Procedures for controlling hazards
- Proper protective equipment for confined spaces
- Duties of the entry supervisor, entrant, and attendant
- Procedures for self-rescue, non-entry rescue, entry rescue by company employees, and entry rescue by emergency responders
- Completing the entry process
- The new Confined Spaces for Construction Standard effective 8/3/2015

*Confirmations and directions are sent within one week of class start date
You may receive confirmations from both ABC NH/VT and NSCNNE.
See reverse for driving directions.*

Driving Directions

New Hampshire/
Vermont Chapter

DIRECTIONS to

Concord Crossing, 2 Whitney Road, Suite 11
Concord, NH 03301

National Safety Council of
Northern New England

From Interstate 93 Northbound

From I-93 heading north, take exit 17 (Penacook/Boscawen Exit). At the top of the exit ramp, merge right onto US 4 west. Proceed 1/2 mile and turn left at the Mobil station onto Whitney Road. The entrance to the office is on the right, and designated by a large granite post with a "2". Enter the facility through the main entrance.

From Interstate 93 Southbound

From I-93 heading south, take exit 17 West. At the top of the exit ramp, merge right onto US 4 west. Proceed a few hundred yards and turn left at the Mobil station onto Whitney Road. The entrance to the office is on the right, and designated by a large granite post with a "2". Enter the facility through the main entrance.
